

Oops!

When we looked in your recycling bin today, we saw the following incorrect items:

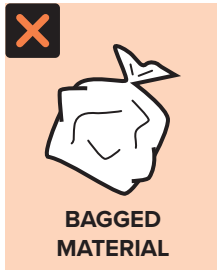

None of the above items belong in your recycling bin.

We know it's not always easy to know what to put where, especially for everyone in the household. You can still recycle right! To get these right next week, **keep all soft, scrunchable plastics and bagged material out of your recycling bin**

We're working hard to get recycling right, but we need your help.

**Soft, scrunchable plastics can't be recycled
through your kerbside recycling bin.**

(This includes recyclables inside plastic bags!)

When soft plastics and bagged recyclables end up at the recycling sorting factory, they have to be sent to landfill. But they can damage machines and contaminate actual recyclables on the way, wasting time, money and precious resources.

Don't let mistakes waste your recycling efforts.
Make sure everyone in your household knows to:

**Put recycling
in loose**

**Put soft plastic
in the rubbish**

Want to recycle your soft plastics?

**If you want to recycle soft plastics, you need to collect them separately
and take them to a REDcycle bin at your local supermarket store.**
