

Guidelines

Planet Ark has created a recycling trivia quiz for workplace and groups to have a fun, interactive learning experience!

Package Contents

1. PowerPoint with 24 questions in 3 rounds
2. Each slide has some facts that can add to the experience
3. Answer sheet for online or in person participation

Tips for presenting

The emphasis is on recycling information, not some much general knowledge trivia. That said, it's still an opportunity for some fun, so here are some tips to make it flow well:

- Two moderators are always helpful to avoid the host being distracted with other tasks.
- For online trivia, be sure to use a system that has the capabilities for breakout rooms or similar options.
- For a live event, be sure to print out these documents on scrap or recycled paper!

Promote your event through Planet Ark's Recycling Week social media channels. Please use **#NationalRecyclingWeek** to connect with us and other groups sharing the fun!

Enjoy!
